

# European General Data Protection Regulation (GDPR)

OBSERVAR – the modular eGRC\* Suite to achieve privacy compliance

*(\*enterprise Governance, Risk and Compliance)*

## Agenda GDPR

---

- 1 Relevance for your company **S. 3**
- 2 Major changes **S. 4**
- 3 Steps to achieve GDPR privacy compliance **S. 5**
- 4 OBSERVAR – the solution **S. 6**

## Why is GDPR relevant for you

### You are a company which...

1

- offers goods or services to individuals in the EU
- or monitors their behaviour within the EU
- and processes and/or stores personal data of employees or customers

### ...GDPR requires from you

2

- ✓ **Accountability**
  - evidence that GDPR privacy rules effective 25 May 2018 are complied with
- ✗ **If not, fines can be levied**
  - up to 4% of Group sales

3

### **OBSERVAR – Simplify your work**

- Web-based solution supports you with work-flows as well as automatic reminder, alert and change request messages, plus provides evidence that GDPR privacy rules are complied with

## What is new for you

### One single GDPR legal framework within the European Union brings...

#### More obligations for companies

- Accountability, Evidence showing compliance with privacy rules
- Data breach notification to supervisory authorities within 72h
- Data protection impact assessment (DPIA) for 'risky' processing activities
- Inventory of personal datapools and record of processing activities

#### More rights to data subjects

- Explicit consent required to process personal data, no 'bundling'
- Right of information and access
- Rights to object, rectify and erasure
- Right of portability and restriction of processing

# How to achieve GDPR privacy compliance

## Steps to succeed:

### 0 Basic settings

...Corporate legal & management structure, currencies, users, control catalogues, notification settings, Web-solution with LDAP for MSSQL database

### 1 Data inventory

...list all personal data pools with description of purpose, processing activities, responsibilities, location etc.

### 2 Risk identification & -assessment

...classification for each data pool& processing activities, description of level of controls

### 3 Controls to ensure compliance

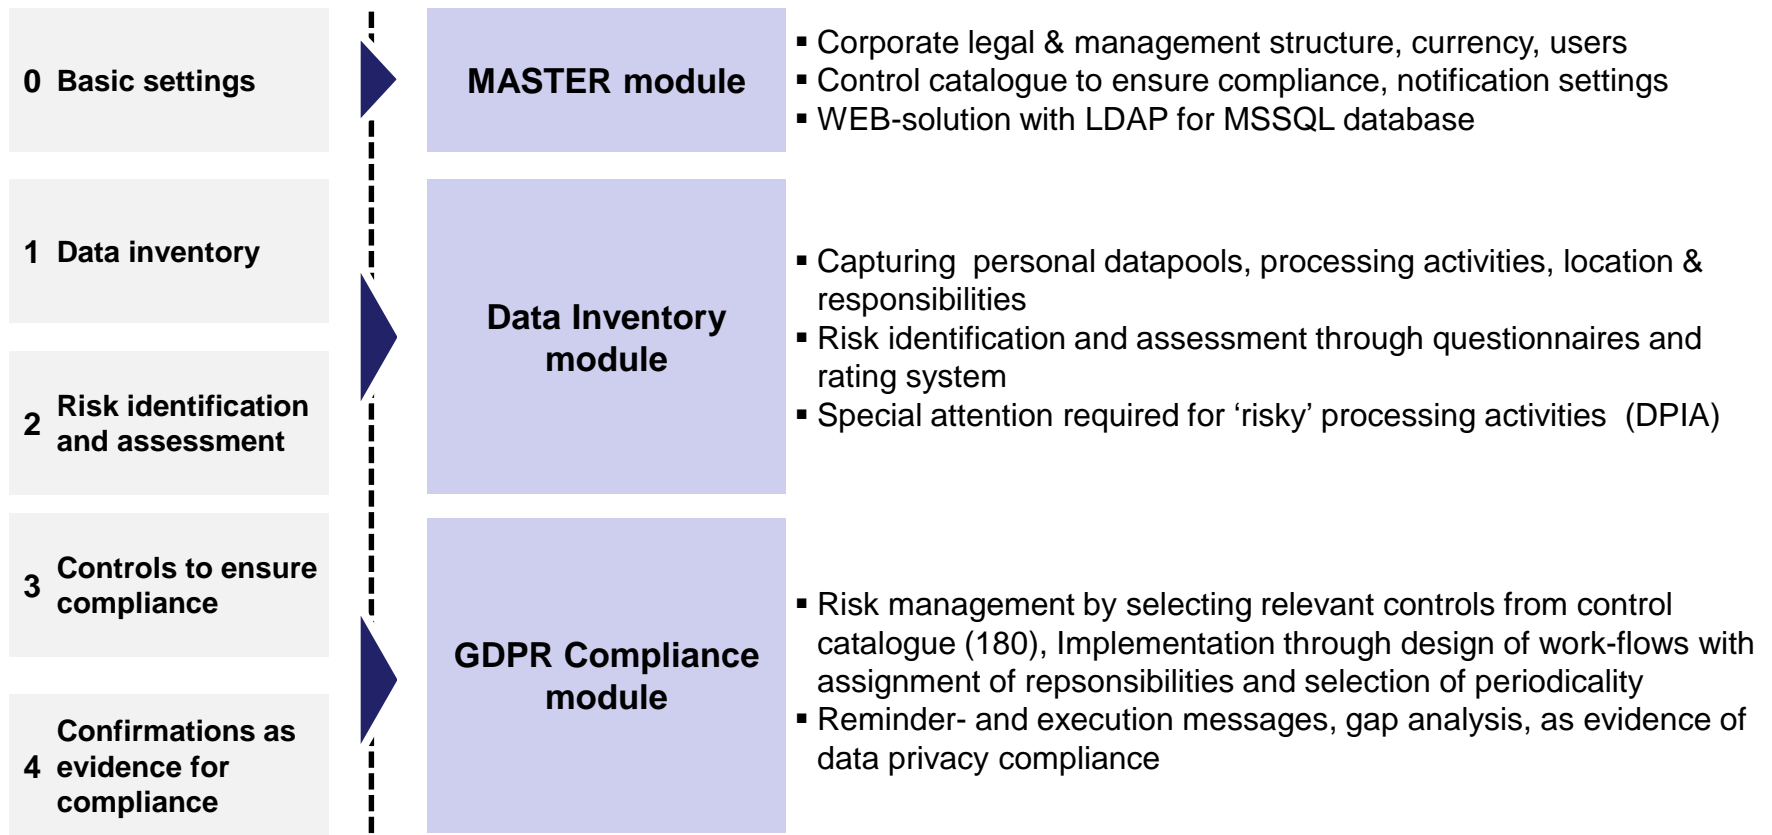

...for risk management purposes select controls, define work-flows to be able to document level of ' Soll' and ' Ist' in GDPR compliance

### 4 Confirmations as evidence for compliance

...as evidence for executed controls, incl. reporting of discrepancy messages(self-assessment with integrated audit function)

## How can OBSERVAR support you

### ....with its modular eGRC Suite

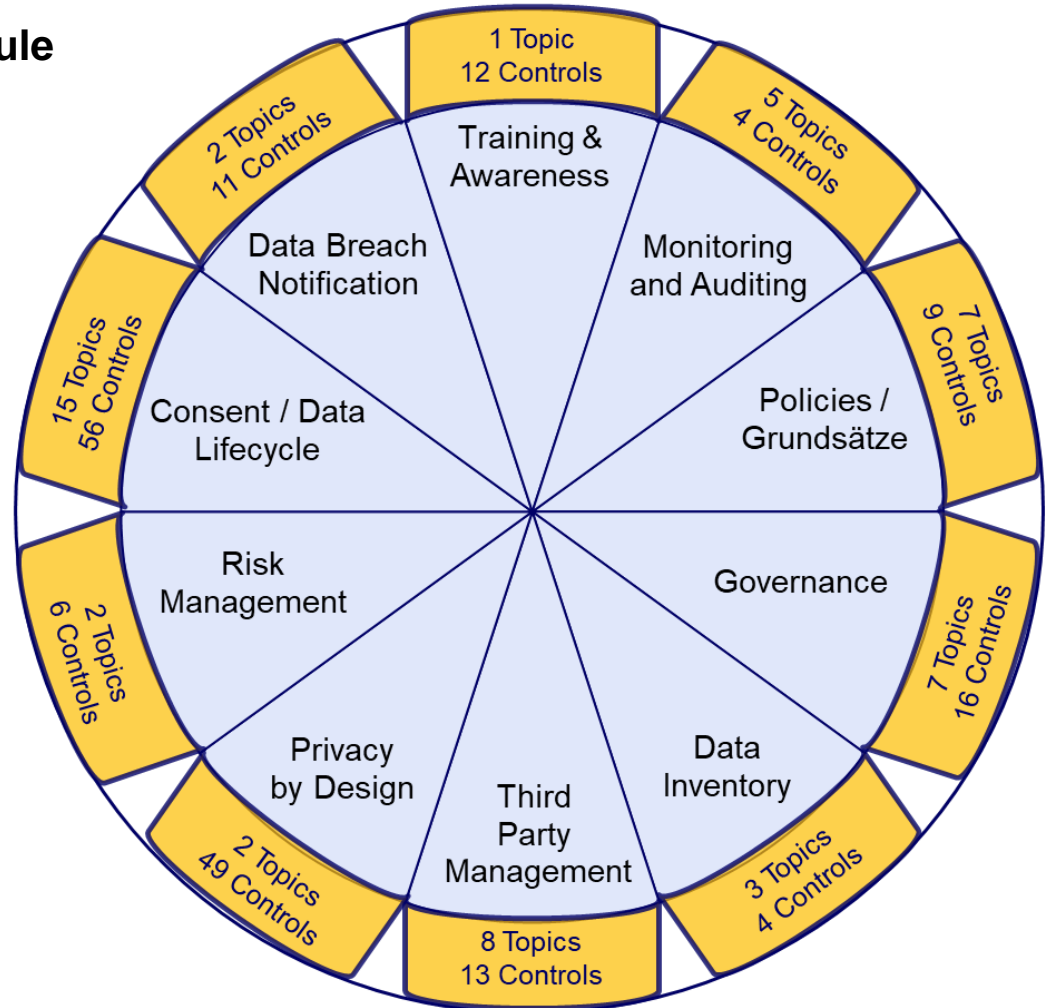

## in detail(I/II) –

### Based on GDPR Compliance module

Control catalogue with

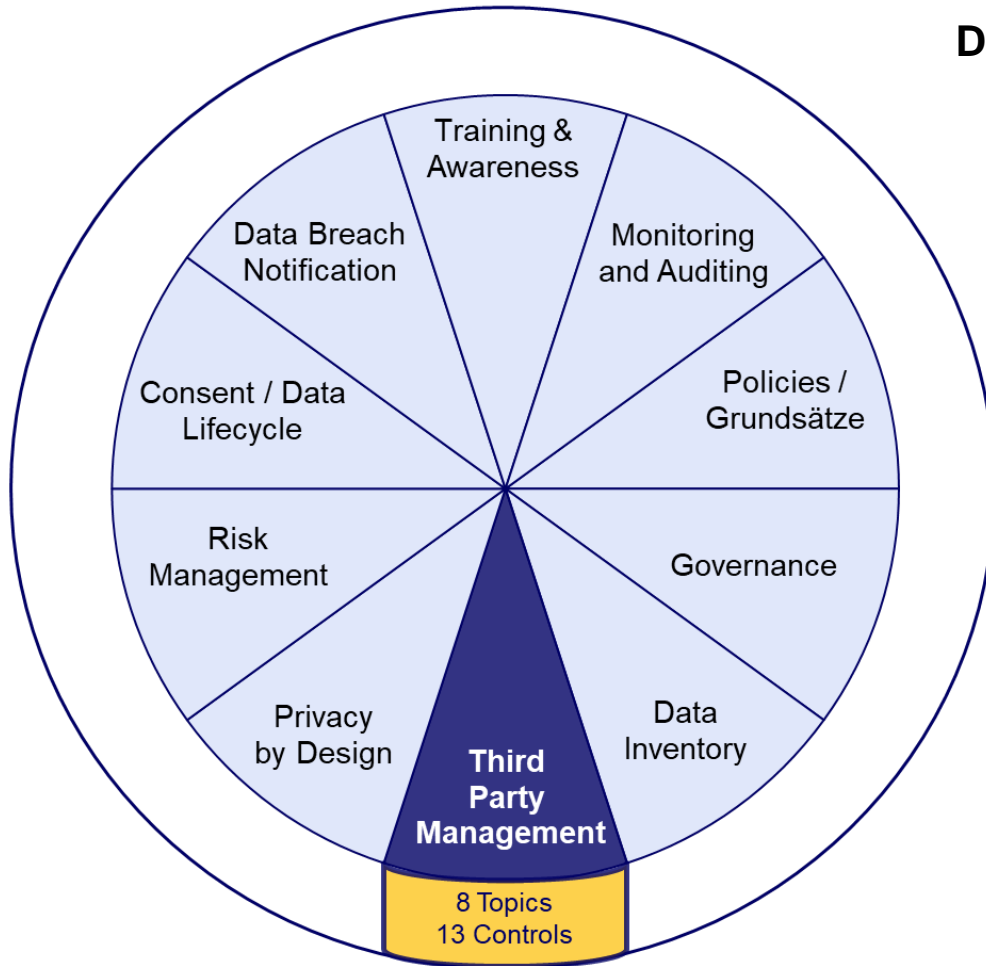

- 10 categories
- 52 topics (GDPR articles related)
- 180 relevant controls (assigned to GDPR articles)

in detail(II/II) –

**Deep Dive – «Third Party Management»**

GDPR article	8 topics (articles) with 13 relevant controls
28	Processor
29	Processing under the authority of the controller or processor
44	General principle for transfers
45	Transfers on the basis of an adequacy decision
46	Transfers subject to appropriate safeguards
47	Binding corporate rules
48	Transfers or disclosures not authorised by Union law
49	Derogations for specific situations

## More to consider for GDPR privacy compliance

### Steps to comply with more legal requirements...

**5 Data Protection Impact Assessment**

...mandatory after identifying 'risky' processing activities

**6 Data Breach Notification**

...mandatory to notify Supervisory Authorities within 72h after detection

### ...with the help of OBSERVAR eGRC modules

**5 Data Protection Impact Assessment**

**Data Protection Impact Assessment (DPIA) module**

- As a consequence of identifying 'risky' processing activities
- Going forward – mandatory for changes in processing activities
- Notification to Supervisory Authorities in case of 'high risk'

**6 Data Breach Notification**

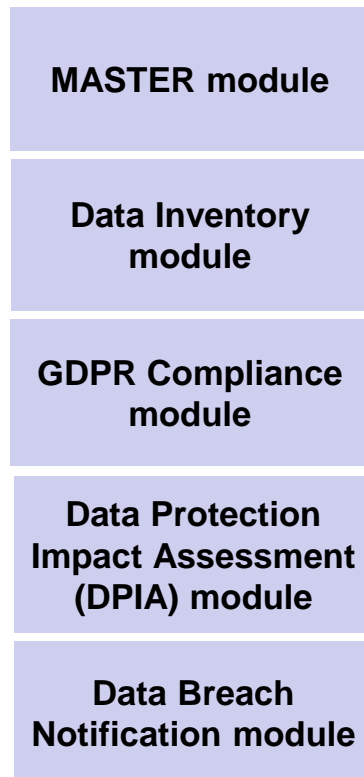

**Data Breach Notification module**

- Capturing of data breaches with alarm message to data protection officer, ensures tracking & documentation to Supervisory Authorities
- Capturing of measures to remedy and for 'follow-up' purposes

## What makes OBSERVAR solution for GDPR unique

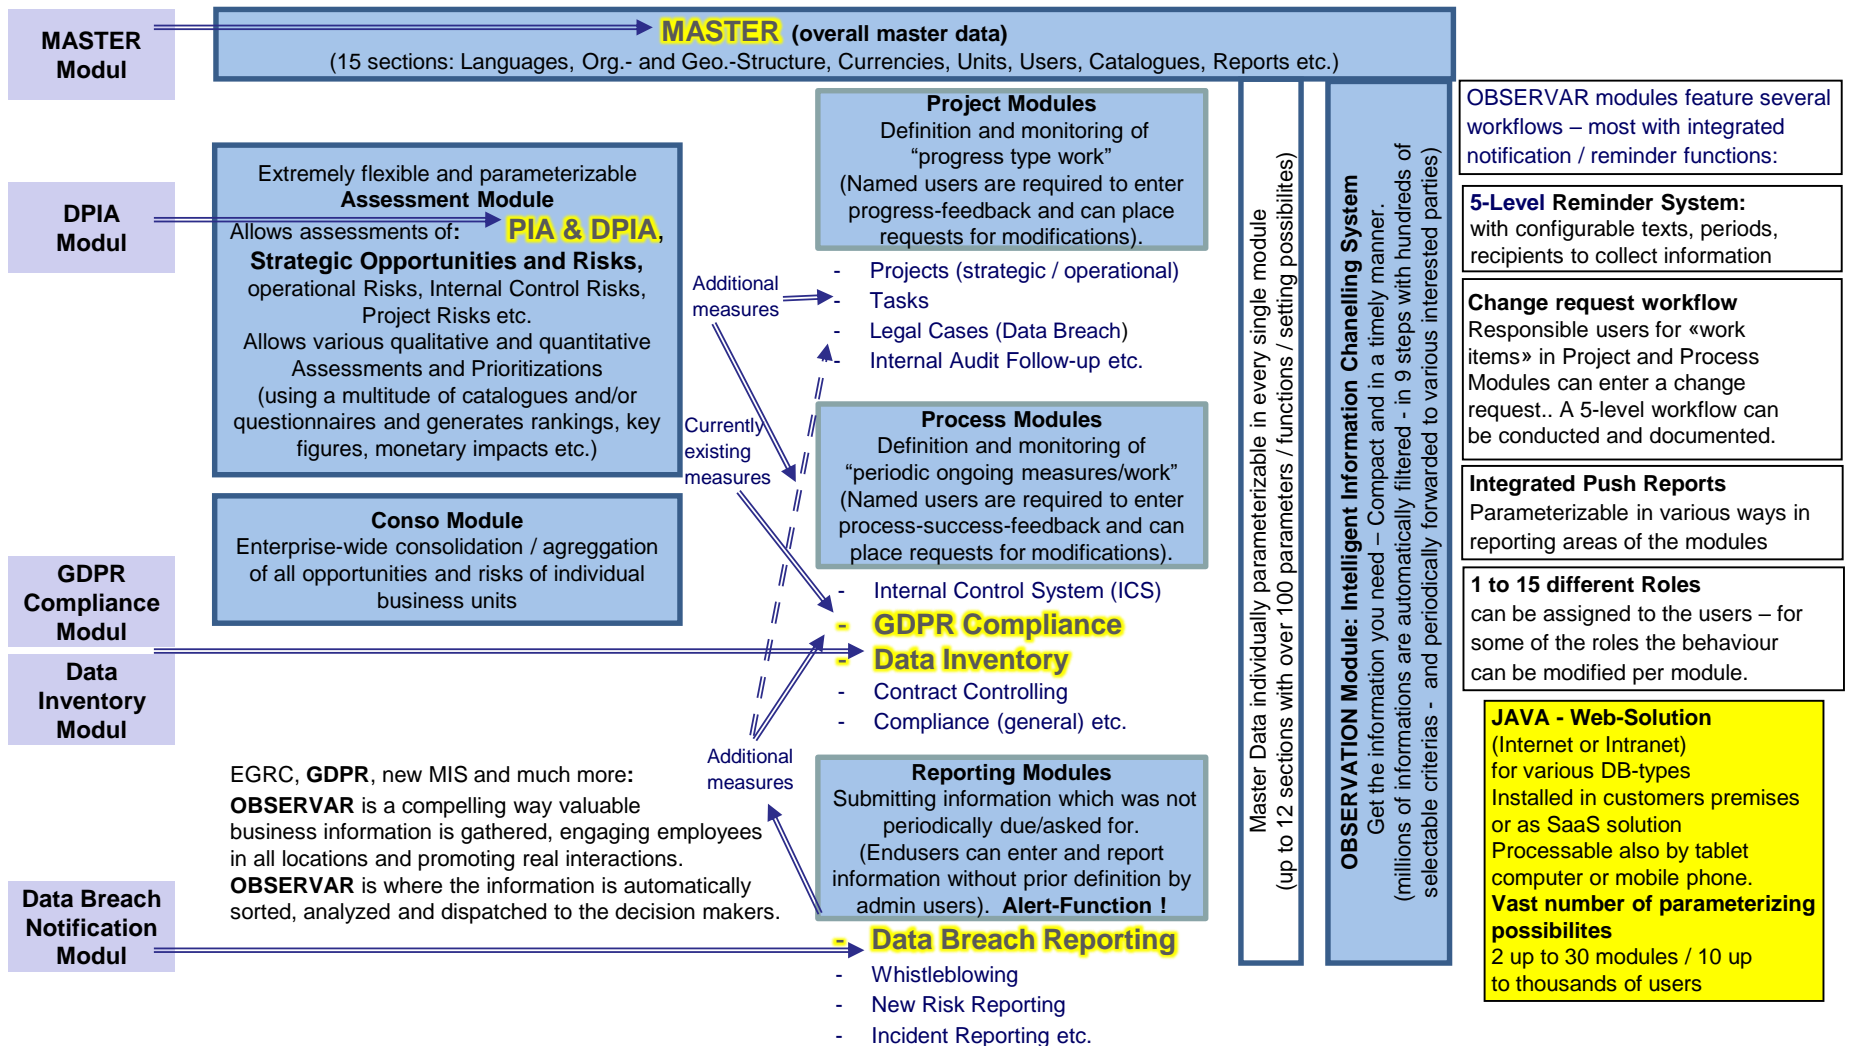

---

### Benefits of a modular eGRC-WEB-based solution

- Dynamic with integrated change management (no static excel or word files)
- For each client need customisable
- Minimal time required to install
- Scalable in terms of numbers of users & modules
- Minimal training required for users
- Integrated compliance awareness
- Evidence of compliance via a system solution, documents notifications and action
- Integrated audit trail
